WARN CLUBS OF CHICAGO RECALLS DRY PADLOCK VIA LUSITANIA LOSS SNOOP EVIDENCE OF 14 YEARS AGO

Declaring it has lost faith in the city administration, the Howard District Business association has decided upon the method of pioneers to solve its street paving problem. Twenty five of its members, mostly small merchants at the north edge of the city, will assemble at \$30 o'cleck on Tuesday morning with overalls and heavy gioves to fix the holes in Howard street between Ashland avenue and the L station.

Before adopting this primitive plan the association exhausted all legal means provided in the municipal code. Appeals were made to the board of local improvements for repairs from the \$40,0000 a year vehicle tax fund. Petitions were circulated for paving and heavy size and Medinah Athletic.

Sales Opportunity

One of our clients, who will shortly begin one of the most extensive subdivision developments in the history of the middle west, offers a unique opportunity to a number of aggressive, high calibre men and women.

This is a job that not only requires the highest type of sales ability, but a thorough appreciation of the fundamentals of real estate development. It is a job for men and women to whom permanency of connection is a major consideration. It is not a job for the "drifter" or the "job-hunter."

Our client will discuss your qualifications with you at once, preparatory to beginning the most extensive real estate advertising program we believe that this part of the country has ever seen.

It is an opportunity for salesmen and sales-women whose past annual earnings have been \$5,000 or more. Write us, giving us full qualifications, past experience, salary earned, etc. Do not telephone. Consideration will be given only to written replies.

Await Central States' Verdict.

Just how the central states will like the bill was uncertain today. A few exitering industries in the central states received increases in duty, but others failed to get them. Examples of industries favored were manufacturers of watches and clocks, two of the largest of which are located in Eigin and Springfield, Ill., and manufacturers of chemicals, located in the vicinity of Chicago. Both of these groups received increases in duty. It was evident that political capital will be made in the central states gainst many of the increases, including those on building materials, on extiles benefiting eastern manufacturers, and on certain steel products. VOTED BY HOUSE

to Mrs. Ickes.

BY CARL WARREN.

Despite the protests of Attorney General Oscar E. Caristrom and a bloc aligned with the old Small-Thompson-Crowe political faction, the house of representatives today voted over-whelmingly for repeal of the Crowe state's attorney law, jammed through the legislature in 1927.

By a vote of 112 to 17 the house passed the bill sponsored by Represen-tative Anna W. Ickes of Winnetka intended to wipe the Crowe act from the statute books. The Ickes bill now goes to the senate for final action. Restores Power to Judges.

Under the present law, which was adopted at the behest of former State's Attorney Robert E. Crowe, for the alleged purpose of thwarting prosecution of Chicago election frauds prosecution of Chicago election frauds and violence by a special state's attorney, a judge is compelled to appeal to the attorney general to act in cases wherein the elected state's attorney is disqualified because of personal interest. The Ickes bill would restore the old law, in effect since 1874, allowing the judge to name a special prosecutor without first going to the attorney general.

Today's action was interpreted as a vindication of State's Attorney John

vindication of State's Attorney John A. Swanson, who pledged in his cam-paign to seek the repeal of the law. De King Case Is Cited.

State's Attorney Carlstrom also apfore the committee, urging peared before the committee, urg that the Crowe law be retained.

ASSEMBLYMEN VOTE TO RAISE THEIR OWN

Caristrom Loses, 112-17, two years. To become effective the measure must pass the senate. The official vote was 78 to 53. A majority of 77 was required.

Representative Calvin T. Weeks of Chicago, author of the bill, argued that \$3,500 for two years is too little to support a family, much less to pay campaign expenses. Representative Thomas J. O'Grady declared that "if there is any member of this house who can show a profit of ten cents out of his salary I want to see him.

"This bill comes at a most appro-priate time, especially since we've been reading so much in the newspapers about legislators on public pay rolls, O'Grady declared. New mastery of distance!

New needle-point separation of stations!

> New, unmarred beauty of tone!

Electro-Dynamic, of course!

HE SET IS READY! It has passed every conceivable test—under all climatic conditions—in the laboratory, in city and country—in skilled and unskilled hands.

Enormous power, needle-point selectivity, longer reach, magical tone!

A moment's trial will convince you that it is by far the best radio Atwater Kent has ever made -and the whole world knows what that means!

Emphatic words like these have never before been used in Atwater Kent advertising. They are used now to describe a set which gives the word "radio" a new meaning.

New power-unrufiled tone

It takes more out of the air and brings more into your home. It is vastly more powerful. Yet all this new energy is completely under your control—as obedient to the fingers of a child as to those of a radio engineer—and as silent as a leopard's step!

The tone is so pure that you feel as if you might reach out and touch the artist, though he be singing or playing hundreds of miles away.

Call the Roll of Stations!

How the stations come in! Not only the old familiar ones, but exciting new ones from away off across the map, which perhaps have been only names to you until now. How they speak up-a host of stations from near and far that heretofore have been elbowed out by others, but are now brought in clearly by Needle-Point Selectivity!

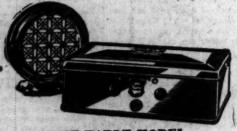

When you see and hear this really extraordinary new radio—as you are bound to do soon glance inside to see how it's made.

Such workmanship comes only with experience. And all the experience of 27 years, including nearly 7 years of leadership in making fine radio, is concentrated in the new Atwater Kent Screen-Grid Radio-made with the utmost care in the Atwater Kent factory-now doubled in size to 31 acres—now doubly the largest radio factory in the world!

Cabinet or Table Set

America's leading furniture makers have designed cabinets expressly for Atwater Kent Screen-Grid Radio. Choose from many styles, just as you choose other furniture.

Again Atwater Kent leads-with the supreme performance of the Screen-Grid set-and with variety of cabinets worthy of it and of your home. Ready today-at your dealer's-or for a trial in your own home—the new Atwater Kent Screen-Grid Radio! Start enjoying it NOW!

BUSINESS LOTS BRING AMAZING RETURNS

A \$690 investment that returns, on an average, 71% yearly seems almost too good to be true. Yet two examples of tremendous earning power like this are shown in lots 24 and 25, block 36, of the Harmon development known as Chatham Fields. When this subdivision was opened in this subdivision was opened in 1914 those two business lots were sold for \$690 each. In the 1928 edition of Olcott's Blue Book of Chicago Real Estate Values their value is given as \$7,500 each; a total increase of 987% each, or 71% average yearly increase for each. A search through the ledgers of the Harmon National Realty Trust on past properties shows endless incidents similar to these. So many of them are revealed, in fact, that the firm's slogan, "A thousand times in a shows increases," is proven true beyond question of doubt. To have maintained a record like this since the days long past when William E. Harmon sold the first lot ever offered on the deferred payment plan, is an enviable record.

A quality not for sale

DIERCE-ARROW itself cannot pur-I chase, or offer for sale, the quality which sets it apart. That quality must be carned, over a period of years. It is a product of integrity and time.

It happens that Pierce-Arrow has just created a new Straight-Eight. This car was given the very finest engineering and design and materials known to the manutacture of automobiles. It emerged, an ultra-modern fine car-long, low-swung, slender and with rare individuality.

But some other fine car might have achieved all these attributes, save onethe single element of lineage, the patrician thing that is Pierce-Arrow.

The new Straight-Eight arrives at the psychological moment. It meets a waiting demand - the greatest in Pierce-Arrow

Grab This Chance to Get a 60-Volume High School Course for Only \$2.98, Full Payment!

NOW you can fill in those embarrassing gaps in your knowledge. Here, in 60 handy volumes which fit your pocket or handbag, you can get the essentials of the usual High School Education for only \$2.98. This is positively all you pay-if you use the special order blank before our 10,000 sets are gone.

What do the words "A High School Education" mean? They mean a thorough grounding in those essentials of modern knowledge which enable a person to be the most efficient in the everyday activities of his work and of his contact with others. When it is required that a person have a High School Education, it is meant that such a person must be equipped with a substantial background of English, History, General Literature, some Languages, Commercial Subjects (Business and Economics), Mathematics, Science and the Arts. It is expected that such a person will have his intelligence alert and trained to enable him to learn new things readily, to know where to look for facts not already in his possession: in short, to be a man or a woman aware of those fundamentals which form the basis of every education and of all culture.

Probably you have often felt the lack of knowledge you really ought to have at your command. Perhaps you did not get the most out of your school-days, or possibly you were obliged to leave school before you had completed your education. Or your High School training has slipped into the past, and you are "rusty" on many subjects. Whatever the reason for the lack, you feel that the void is there-and you want to fill in the gaps! This 60-volume High School Educational Course is just the thing for you -it is comprehensive, easily understandable, thoroughly reliable and authentic, and absolutely up to date.

Whether you wish to study High School Subjects for the first time, or whether you merely wish to review your High School Education, you will find these 60 books exactly what you need. Read the list of titles carefully as listed at the right-and remember, all you pay for all 60 of these splendid books is two dollars and ninety-eight

A word about this astonishing low cost-the price of \$2.98 for all 60 of these books is possible, has been possible, because of mass production. These books have been bought by more than 250,000 people. The popularity of these books is irrefutable indication that they are filling a widespread need. Indeed, the price is so low that many people get the set just to have the books handy for reference. At such a price no one can afford to be without these books. In usual library form they would cost perhaps \$25; in the new 2-volume cloth edition they cost \$10-but you can get the same material, word for word, in 60 pocket-sized volumes, for only \$2.98 postpaid! But remember-10,000 sets are all we have. You must not delay a moment! Grab this chance NOW!

Variety of Subjects

ONSIDER for a moment the wide scope of these sixty books-think just how comprehensive they are! There are 825,000 words in these sixty volumes. They include a wonderful variety of subjects, from history and economics and literature to mathematics, foreign languages and the arts. Even commercial subjects, such as geography and typewriting, are included. You get a substantial foundation in the arts, and an insight into the great world of science. Then there are the handy reference volumes, the alphabetical dictionaries, which give you concise

information just when you need it and exactly as you want it. Four foreign languages—the languages which most English-speaking people desire to learn-are given in this set. These foreign languages are self-teaching in these handy volumes. They may be readily grasped with the aid of these books.

Everything you need is here—this series is compact and complete in itself. There are two volumes of questions and answers (quizzes) with which you may test your knowledge from time to time. There is that excellent general treatise on "How to Study"-this work alone is really worth the entire price of the set in the valuable hints it gives and in the manner in which enables the average person to study in such a way that he will get the most possible good out of his efforts.

You will find it invaluable to have at hand many of these books which you may not use at first. Though some of the subjects may seem to you apart from your present interests, they will sooner or later come in handy. Everyone, today, should have a representative library of reference to which he can turn in search of facts when he requires them. In our modern civilization, with the miracles of modern printing, knowledge is within everyone's reach. There is no longer any excuse for any individual to remain in ignorance. Lack of knowledge is not tolerated. Today you must be progressively alert-keep abreast of the times-and maintain a standard of education that is on a par with the knowledge of your fellows.

THE mails must go. That is why the Universal Aviation Corporation, operating fleets of passenger and mail planes between Chicago, Kansas City, St. Louis, Omaha, Indianapolis, Cleveland and Louisville, choose Stanolind Aviation products to protect their great Wasp and Hornet engines against friction.

The determining factors resulting in this choice were: Quality of Oil and Specialized Lubricating Service.

You may not be interested in airplanes but you gain the advantages to be derived from the work of these lubrication specialists when you use

Polarine Iso-Vis

They are exceptional motor oils that hold up under the most trying conditions. They are both sturdy and rich. They maintain protecting cushions of oil on all bearing surfaces. They make the engine run smoothly and keep it from wearing out.

Polarine is effective and economical. The Standard Oil Company has kept it abreast of developments and recommends it to you to give maximum lubrication at minimum cost. Use Polarine and drain the crankcase every 500 miles.

Iso=Vis is the most advanced of motor oils because it will not thin out and because it wears and wears and wears—frequent draining of crankcase is not necessary. Motorists drive 1,000 to 2,000 miles without changing Iso=Vis and every bearing is lubricated correctly on the way.

Use either Polarine or Iso=Vis. You'll save yourself worry and trouble. You'll save your money. You'll save your car. The Standard Oil Company [Indiana] recommends both Polarine and Iso=Vis.

The letter indicated that Von Buhren's sweatheart was to have been included in the death pact. A statement made in a will which was also found in the apartment specified that burial of the four persons was to be made together, and tombstone inscriptions were outlined.

The letter, signed by George Von Buhren, said that "the catastrophe was brought on by despondency and personal reverses," and that if the state divorce laws were different the three deaths might have been averted.

It referred to a woman named Susan Silent films, he revealed, have long such as the universal color of talking pictures, is a depressing tone, not conducive to arousing the spectator anything besides boredom. Mr. Jones did not say that a great many pictures deserve to be colored gray all the way through, but that might have been intimated.

At any rate, it was his opinion that colors should be utilized to stimulate the emotions of motion picture audiences, and he set about deliberately months ago to evolve a method of putting colors in the screen.

Comes now Mr. Loyd Jones, a physicist, employed by the Eastman photographic laboratories at Rochester, with a method of tinting talking films to any of sixteen desired colors each designed by him, to stir in the onlooker the emotions appropriate to the scene depicted on the screen.

Mr. Jones revealed his discovery at a meeting of the Society of Motion Picture Engineers at the Bell Telephone labortory today, stirring in the engineers the emotion of extreme curiosity as the picture on the screen glowed now argent, now amaranth,

The theory is that the gray, which has been the universal color of talk-

three deaths might have been averted. It referred to a woman named Susan who was identified by Alfred Joyce of Brooklyn as his sister, Susan Joyce.

Miss Joyce was seen with Von Buhren and the two children frequently and left them about two months ago, according to neighbors and Alfred Joyce. Since that time she has refused to see Von Buhren and he in turn has threatened to kill her, it was said.

On Tuesday, April 30, Von Buhren was waiting for Miss Joyce when she left work and followed her home, her brother said. It is not believed that she has seen him since that time.

Eight Primary Tints.

Silent nims, he revealed, have long made us of eight more or less primary tints, sea scenes having a bluich time, fireplight scenes orange, and so on. The entire scene, not each individual subject, was tinted and his present development also tints the entire scene.

Mr. Jones kept enough blue in all his colors to bring forth the sound of voices, instruments and the galloping steed of the hero. The blue, however, is not visible to the eye when the other colors are put on the film.

The photo-electric cell is so much more sensitive than the eye that Mr.

Outposts of Chicago in Topeka and Tallahassee

TAMMERS spatter hot rivets into ribs of steel, and a new factory rises in Topeka. A warehouse is built in Tallahassee, unloading docks at Toledo, a cotton . mill in Columbia—outposts of Chicago—far-flung across the nation.

A gigantic human responsibility rests on the leaders of Chicago. For these men have become bankers and directors of a nation's industries. They have become

accountable for the happiness and welfare of the millions of people whose livelihood is in their hands.

Today the business leaders of Chicago are conscious that the demand for the products of forest and mine and factory must keep pace with the everincreasing speed of production. They know that this demand must come from the far-flung corners of the nation -from millions with the

The present fight is really a holdover, or completion of the fight between the government forces under
Gen. Chiang and the Kwangsi faction,
which started in the Yangtze valley
a few weeks ago and which resulted
in victory for Gen. Chiang.

Upon the defeat of their forces in
Hankow, three of the Kwangsi leaders,

Chiang Appeals for Support.

Gen. Chiang today issued a message to the nation appealing to the people for support in building up a powerful central government. Whether there is peace or disorder in China, he said, depends upon the creation of a strong unified central authority.

He declared the government's program consists of, first, reduction of surplus troops; second, elimination of military spheres; third, recorganization of the national army for purposes of national defense.

The ousehold an for family loans

AMILIES who are unable to make regular bank loans often need additional funds to tide them over such emergencies as sickness, or a sudden operation. Frequently scattered bills can be grouped and paid in full. Sometimes two or three hundred dollars enables them to take advantage of unusual bargains; or meet a pay-

To serve such families, the Household Finance Corporation was organized more than fifty years ago, and the Household Loan Plan was developed. Under this plan, the average family can secure immediate, confidential and friendly financial assistance.

Borrow At New Rate Nearly 1/3 Lower

The Household Finance Corporation has voluntarily reduced its rate nearly one-third. Under this new low rate, loans paid in twenty equal monthly payments, cost as follows:

\$100 loan, average monthly cost \$1.32 \$200 loan, average monthly cost \$2.63 \$300 loan, average monthly cost \$3.94

Therefore, you would repay a \$100 loan at the rate of \$5 per month, plus interest. The first month, the interest charge would be \$2.50. And the last month it would be only 13 cents. The everage monthly cost is \$1.32 per month.

You May Repay At Any Time

Loans may be paid in full at any time; you pay interest ONLY on the unpaid balance, for the actual time you keep the money. You get the entire amount—there are no fees or deductions. No outside signers are required, and employers, relatives or friends are not notified.

Big Bertha

The American Weekly covers more markets than any medium on advertising's list.

It concentrates its circulation where a manufacturer can profitably and promptly send a salesman.

Its distribution side-steps the off-trails of trade and carefully avoids Red-ink-ton.

Over 5,600,000 families without a blank prospect among 'em.

Over 5,600,000-family power—the heaviest calibered spending capacity on earth—and all directed at targets with cash register bells on 'em.

Drum-fire circulation, before which sales resistance can't survive—delivered by salvo—attacking selective territory with artillery intensity.

The American Weekly lays its barrages upon the richest salients of consumption—smashing through where smatter-scatter tactics can never hope to penetrate.

The Big Guns of business are increasingly aiming the Big Bertha of promotion upon the big population centers, where house brands have joined battle with national trade-marks, and a war for community prestige is raging at white heat.

Department stores and store chains are determined that their own labels shan't play second fiddle and refuse to build good-will for any outside product—except under the compulsion of continuous and overwhelming demand.

The American Weekly has crowded its readers where single establishments are appropriating millions to capture public confidence for their own specialties and exclusive lines.

Metropolitan Goliaths aren't falling for or before sling-shot publicity.

Factories must "burn powder" or withdraw from Uncle Sam's ready-money belt, which holds half the fluid wealth of the nation and absorbs more than fifty per cent of all output in staples and luxuries.

American Weeklydom is the highest earner and the leading spendthrift of history.

El Dorado, Cibola, Golconda and Ophir, together, couldn't furnish the gold in its tills and bank balances—pocket gold in exhaustless supply—billions concentrated where selling costs are lowest, shipping charges least and order-books are incurable repeaters.

We sell tonnage not towns—saturation not sampling—trainload lots, not break-package try-outs.

Join the Giant's Cluband use one.

No other publication can crash the same gates or match the same rates.

The distinction of American Weekly advertisers, immensity of their operations, and the growth of their lineage warn hang-backs, doubters and dabblers to contract for space before production limitations hang the "sold out" sign.

\$16,000 per color page—and all the color the copy calls for—with the added advantage of double-sized display—at a mere fraction above the price of black and white.

We ask a lot, but we give it too.

\$16,000 for over 5,600,000 family contacts—or, as quick-figuring budgets will calculate, three families for a penny.

MANILA, P. I., May 7.—Operations
of the public works in the Philippines average 35 per cent graft in
the total costs, Insular Auditor Ben
Frank Wright said today.

Mr. Wright, who has returned from Bagulo to defend himself in proceed-ings against him in connection with checks issued for \$750,000 on the port development project at Iloilo, was ng an appeal.

He has requested a hearing before the full Supreme court, contending, under the American revised statutes, section 1001, that a government offi-cial is not obliged to give bond for carrying out his duty.

Charges Millions Grafted. Mr. Wright also says a deliberate effort is being made to pervert justice in the case of Postal Director Towho is now in London attending the postal congress. The latter left here under charges, although Mr. Wright at the last moment obtained a warrant for his arrest which was clared to be invalid on the and that the seal was lacking, ough the judge's signature was

WHY YOUR CHICAGO TRIBUNE IS THE

VOICE OF THE CENTRAL STATES

Me Repeat-

No paper company or power trust or public utility or any other powerful financial combination owns any stock or bonds or notes or interest of any kind in this newspaper;

Americans. They are not mere telegraph operators for the news agencies and press bureaus of foreign powers but able, fearless correspondents who give Tribune readers the most accurate news service in the world;

It is not a mere link in a chain of newspapers, operated from regions alien to your welfare.

The Tribune never subordinates the interests of the Central States to those of other sections of the country;

The city of Washington is a maelstrom of special interest lobbying.

The Tribune's Washington offices are purposely kept away from "hand-out" headquarters. Tribune men in Washington search out the facts, unvarnished, unbiased. Their orders are, "Hand-outs' are barred-get the truth-we dare print it!"

Helter-Skelter Feature Is Won by Andromeda.

[BACE CHART ON PAGE 82.]

Shortly after this was done, a periodical drunkard of childish mind employed as a pitcher by the Giants got drunk and while drunk write a barely coherent letter to Leslie Mann of the St. Louis club, offering to stay drunk for some time and thus handicap his own team for a cash consideration.

The propositions were somewhat akin. The drunken pitcher would have done the same things to the Giants that Mr. Harry Frazee, the Boston magnate, did to the Red Sox, only to a much smaller degree. Mr. Mann of the Cardinals refused to accept the advantage but the Yankee firm was glad to.

Lyon Draws Suspension.

The judges suspended Jockey C. Lyon for rough riding on Anita M. No official ruling was made on Conquitador. Probably Owner Charley Irwin agreed to transfer him from his racing stable to his rodeo troupe. If Conquistador doesn't go to the rodeo, Starter Morrissey will have a clear case of self-defense if he hits him on the head with a fence rail the next time he approaches the barrier.

After the rumpus, Shasta Lad ran a whale of a race to be second. It is showed that the folks made no mistake when they backed him strong enough to make him the favorite. Queen Towton, with Shropshire on her back, was roughed around so much she didn't get back into stride on the half way down the stretch, but it got her up only to fifth place. Fortunate Girl was fourth.

The time of 1:06 2-5 for the 5½ furlongs was very slow for such a feet band, but it was good evidence of the melee which took place when old Conquistador decided he wanted to take the lead.

Yes sir, gentle spring has been a mockery so far as balmy weather is concerned. This morning after three hours of crashing through the ice in the marsh along the Pine river and standing in water so cold that it makes your feet unconscious we felt that a shotgun and a duck blind \$6.05 to 0.00 would be more appropriate for the day than a 10 foot rod and copper spinners.

But the trout are hitting, and when they fight. However, it is shot fight. However, it is s

DO SPECULATIVE SECURITIES DOMINATE, YOUR HOLDINGS?

The realization, during recent years, on the part of many investors, of the attractiveness of equities in well managed companies, has brought about an increasing interest in stocks.

Most investors undoubtedly should have a reasonable proportion of their funds in sound stocks. In the last few years, however, many people in buying stocks have purchased too many speculative issues.

This organization can assist you in building a sound diversified list of investments, including a proper ratio of attractive stocks-stocks which will afford a good income return and offer possibilities for appreciation in market value.

The Debentures will carry non-detachable warrants entitling the holder to purchase, subject to the terms of the Agreement covering the warrant privilege, 20 shares of Class "A" Common Stock of Fox Theatres Corporation, listed on the New York Curb Market and on the Boston Stock Exchange, for each \$1,000 of Debentures (warrants for the purchase of a proportionate number of shares will beattached to the \$500 and \$100 Debentures) at \$40 a share from May 1, 1929 through August 1, 1929; at \$42.50 a share from August 2, 1929 through November 1, 1929; at \$45 a share from November 2, 1929 through February 1, 1930, the price thereafter increasing \$1.00 per share for each three months from February 2, 1930 through February 1, 1931, and thereafter at \$50 a share through May 1, 1937.

A letter from Mr. William Fox, President of the Company, is summarized in part as follows:

Business: Fox Metropolitan Playhouses, Inc., a wholly owned subsidiary of Fox Theatres Corporation, will constitute by far the largest group of theatres under one management within the limits of New York City, and will form a strategic link in the Fox Theatres Corporation's chain of motion picture houses. The Corporation has existing contracts for the acquisition of 115 theatres, 4 in fee and 111 under leases, having an aggregate seating capacity in excess of 140,000, a majority of which are located in New York City.

Earnings: The earnings of the properties to be acquired by Fox Metropolitan Playhouses, Inc., pursuant to existing contracts, as certified by independent auditors, after a net credit adjustment of \$1,012,835, giving effect to the elimination of non-recurring items of income and expense and to certain estimated savings in film rentals and cost of vaudeville, less estimated head office administration expense, are summarized as follows for the year ended October 31, 1928: Gross Receipts, \$14,794,000; Net Earnings available for Interest, Amortization and Federal Taxes, \$2,967,000. Maximum Annual Interest Requirements on the Company's Funded Debt (these Notes) amount to \$845,000.

Security: These Notes and the Debentures, in the opinion of counsel, will be a direct obligation of Fox Metropolitan Playhouses, Inc. The commercial value of the operation of the theatre properties to be acquired by the Com-

pany, as appraised by independent engineers, totalled \$19,500,000 as of April 25, 1929. The Trust Indenture will provide for a semiannual sinking fund calculated to retire not less than 90% of the greatest principal amount of Debentures at any time outstanding.

Fox Theatres Corporation: With the acquisition of the Metropolitan Playhouses, Fox Theatres Corporation's chain of motion picture houses will total approximately 157, including the Roxy in New York. The Corporation recently acquired a substantial stock interest in Loew's Incorporated which engages in production through its subsidiary, Metro-Goldwyn Pictures Corporation, producers of Metro-Goldwyn-Mayer pictures. In addition, Fox Film Corporation, which is operated by substantially the same management, controls through subsidiaries approximately 250 theatres located from coast to coast.

Net profits of Fox Theatres Corporation and subsidiaries, after all charges, including Federal taxes but before dividends, for the fiscal year ended October 28, 1928, as certified by independent auditors, totalled \$3,111,440, after giving effect to the acquisition of Fox Metropolitan Playhouses, Inc. on the basis indicated above. The capitalization of Fox Theatres Corporation consists of 1,663,100 shares of Class "A" Common Stock and 100,000 shares of Class "B" Common Stock. The Class "A" Common Stock, based on current quotations, has a market value of over \$44,900,000.

Diversified Investments Incorporated Thirty Year 5% Gold Debentures Series A

Dated June 1, 1928 Due June 1, 1958 Principal and semi-annual interest June 1 and December 1, payable at the Harris Trust and Savings Bank, Chicago, Illinoia, Trusten, at the Guardian Trust Company of Detroit, Detroit, Michigan, or at The National Park Bank of New York, New York City, New York. Redeemable in whole or in part on any interest payment date, at the option of the Corporation, on sixty days' published notice at 103 on or before June 1, 1939, thereafter at a premium of 1 of 1% of 1%

Mr. E. C. Blomeyer, Chairman of the Board, summarizes his letter as follows:

BUSINESS: Diversified Investments Incorporated (a Delaware Corporation) controls, through stock ownership, a number of the most prominent independent telephone companies in the Middle West serving without competition more than fifty cities and towns located for the most part in the states of Illinois, Indiana, Iowa, Missouri, Ohio, Oklahoma and Texas, and having an aggregate population estimated to be in excess of 850,000. The Corporation also has investments in companies allied with the telephone business. As of December 31, 1928, there were 148,299 telephones in service in the operating companies. Toll service within the system of each controlled company is supplied in practically all cases over owned toll lines. National long distance service is supplied through connections with the lines of the Bell Telephone

PURPOSE: The proceeds of this issue of Debentures will be used to complete the acquisition, upon a favorable basis, of stock of companies engaged in the telephone business and for other corporate purposes. EARNINGS: Consolidated earnings of the properties of the Corporation and its subsidiary companies at December 31, 1928, as reported by Arthur Andersen & Co., Certified Public Accountants, for the years ended December 31, 1927 and December 31, 1928, were as follows. (These earnings do not include additional earnings from investments made since December 31, 1928):

Gross Earnings. \$4,966,032 \$5,400,688
Operating Expenses (Including maintenance, Federal Income and other Taxes) 2,952,795
Net Earnings before Depreciation. \$2,013,237
Net Income attributable to Minority Common Stock Interests . 102,765
Balance of Net Earnings Balance of Net Earnings. \$2,248,092

Annual Interest and Dividend Charges on Bonds and Preferred Stocks of Subsidiaries

to be outstanding in the hands of the Public. \$49,126

Balance available for Debenture Interest and Depreciation. \$1,898,966

Interest on \$7,000,000 Thirty Year 5% Gold Debentures Series A to be presently outstanding: outstanding:

350,000

Includes gross carnings of \$515,364; operating expenses \$333,986; and net earnings before depreciation \$181,378; as officially reported.
These earnings are applicable to properties acquired during 1926 and, therefore, were not included by auditors in their report covering the year 1927.

As shown above, earnings available for interest on these Debentures for the year ending December 31, 1928, after all prior charges but before depreciation, were equivalent to approximately 5.4 times interest requirements of these Debentures, and net earnings after provision for depreciation of \$930,406 were over 2.7 times such interest requirements.

PROPERTY VALUES: As shown by the certified audit of Arthur Andersen & Co., the properties of the Corporation and its subsidiary companies were carried on the books as of December 31, 1928 at a consolidated gross value of \$20,236,685.90 which is at the low average figure of \$137 per telephone for the telephones in service on that date. It is estimated that the conservative reproduction cost new of these properties, less depreciation, would be considerably in excess of this figure. Depreciation reserves were carried on the books at December 31, 1928 in the amount of \$3,440,373.47.

MANAGEMENT: The Corporation is under the management of able and experienced telephone executives who have been conspicuously successful in the development and management of independent telephone properties for many years. A number of these executives have had more than 25 years' experience in

Legal matters pertaining to the issuance of these Debentures will be passed upon by Mr. L. E. Durham of Kansas City, Missouri, for the Corporation, and by Messrs. Defrees, Buckingham, Jones and Hoffman of Chicago for the Bankers. The books of the Corporation and subsidiary companies are audited annually by Arthur Andersen & Co., Certified Public Accountants, Chicago, Illinois. These Debentures are affered when, as and if issued and received by us, and subject to approval of counsel. It is expected that Debentures in permanent form will be ready for delivery on or about May 15, 1929. Price 90 and Accrued Interest, yielding over 5.70%

An abundant supply of intelligent labor can always be obtained for a reasonable wage at Rome. The city is conveniently near enormous supplies of cotton linters and wood pulp, the chief raw materials used in the manufacture of Rayon. It is located in the midst of hundreds of textile mills, the principal ers of Rayon yarn. Three large railway systems supply excellent transportation and advantageous freight rates.

Three large-power companies bring in an unlimited amount of inexpensive hydro-electric power for the industries of Rome.

fully decided upon after a nation-wide purvey

The deep, never-dry Oostanaula River flows by one boundary of the 2,000 acre site of the American Chatillon Corporation. From this unfailing natural source, 4,300,000 gallons of the water essential in the manufacture of Rayon, are daily filtered and then pumped to the corporation's plant and mill village.

A healthy location, intelligent labor, nearness to raw materials and consuming centers, inexpensive power, splendid trans-portation facilities—these and other factors combine with the new processes and improved manufacturing metho the Corporation to start a new era in Rayon production

RISES ANEW TO PLAGUE WALL ST.

Iwo reasons for not owning a Packard both unsound!

FIRST—You think you cannot afford a Packard.

SECOND—You will not keep any car longer than two years.

NEITHER of those reasons is a sound one.

If you think you cannot afford a Packard there is a welcome surprise awaiting you.

For it actually costs no more to own a Packard Standard Eight over a period of four or five years than to buy and trade in two or three lesser cars during the same time. Take a pencil and paper and figure it out for yourself.

Gasoline, oil and tire costs as between a Packard Standard Eight and any other car down to half its price are substantially the same. It costs no more to garage the Packard, and but little more to insure it. Upkeep and repairs are usually less because Packard factory precision is protected by centralized "instant" lubrication.

The somewhat higher first cost of the Packard Standard Eight over ordinary cars is completely offset by the fact that Packard cars are built to provide and do provide many extra thousands of miles of luxurious, trouble free transportation. Their characteristic beauty of line is always up to date, for Packard has never depreciated cars in service by frequent and radical changes in design.

Most owners, therefore, keep their Packards at least twice as long as the cars they turn in, according to accurate, country-wide records.

These owners wisely enjoy the luxury and distinction of Packard transportation at lesser car costs. So if your reason for not owning a Packard is your insistence upon having a new car every two years, regardless—well, it's a reason, but hardly a sound one.

Because if you buy a new car every 20 months or so, you are not getting full value in motoring luxury for the money you spend. You are paying too many profits and taking too much depreciation. You are paying for a Packard without enjoying Packard beauty, comfort, distinction and performance!

The Packard Standard Eight is priced from \$2275 to \$2675 at the factory. The Packard Payment Plan is most attractive. Your pride and pleasure in Packard ownership will continue long after the purchase price has been forgotten.

Why not talk it over with us today?

Kick and comicality characterize The Donovan Affair," adapted from the stage play by Owen Davis.

The apparently delighted optaudi-ence, of which I was one, shuddered at the kicks and laughed at the fun. Maybe they did get a trifle bored at times with Jack Holt as the police inspector. I did. Maybe they as did I, WHY Alphonse Ethier had not his rôle and he Alphonse Ethier's for the former can play police inspectors as can nobody else on the screen, and Mr. Holt knows his wronged husbands to a "T." or not all this worried the folks at the State-Lake Monday morning I can't say, but I judge it didn't from

the way they received the movie.
"Who murdered Jack Donovan?"
is the question the picture solves. The
killer could have been almost anybody in the cast, for never was a gentle man more widely and genuinely hated for cause than the slick article por-trayed by John Roche. [Which is where this information bureau stops

giving out information.]

"The Donovan Affair" has lots of action, considerable suspense, some forced comedy, and some really ribtickling situations. Most of the laughs are supplied by Ethel Wales and Hank Mann as a Mr. and Mrs. Lindsey. The Mann as a Mr. and Mrs. Lindsey. The cast is a capable one and direction is satisfactory, save as regards Mr. Holt and Fred Kelsey, who at times overact—because of direction or in spite of it—I don't know which.

HEN hie yourself to the nearest representative of the White Star, Red Star and Atlantic Transport Lines ... make reservations on the first outgoing ship, Europe-bound. When you land, travel post-haste to London and inquire from some kind bobby the direction of Piccadilly Circus. + Don't look for three rings and a tent when you come upon an interesting circle in the heart of the theatre district of London. For the circle is the circus. It's called Piccadilly after the Spanish picadilloes (collars) that the beau brummels of bygone days were on their strolls bout town. . Really, the charm of London and England and France (that is but a two-hour air-flight away) must be enjoyed and not read about. And today, one is almost hopelessly "out of it" without a European background.
